## EXPERIENCE

---

### Cherry Grove Farm

Jun. 2025 – Feb. 2026

*Cheesemaking Apprentice*

*Lawrenceville, New Jersey*

- Supported daily cheesemaking operations, contributing to the production of the farm's award-winning cheeses.
- Built foundational knowledge of dairy microbiology and food safety through readings and formal training.
- Assisted with tasting and packaging cheese for sale, developing sensory evaluation and quality assurance skills.
- Represented the farm at a weekly farmers market, selling cheese and other farm products, answering customer questions, and gaining firsthand experience with small-scale food business sales and marketing.
- Edited narrative and budgetary documentation for a regional USDA Business Innovation grant application.

### Peace Corps Ghana

Jun. 2022 – Sep. 2024

*Education Volunteer*

*Oti Region, Ghana*

- Designed engaging lesson plans and taught mathematics and computing to 110+ junior high school students.
- Co-organized and co-facilitated a weekly literacy club to engage 60+ students through interactive activities.
- Planned and implemented events focused on menstrual hygiene awareness and access for adolescent students.
- Secured and managed a \$13,000 grant, coordinating with community members, educational administration, and Peace Corps staff to produce and maintain detailed records of project progress.
- Planned and presented several events and training sessions for staff workshops, youth programs, and volunteer training, ensuring comprehension and engagement among diverse audiences of teachers and students.
- Produced and edited multiple videos used to supplement trainee onboarding and regional Peace Corps events.
- Developed language skills in Twi and ASL.

### Amazon

May 2021 – Aug. 2021

*Software Dev Engineer Intern*

*Sunnyvale, CA*

- Developed Python and Java libraries to implement drag-and-drop SSO authentication and authorization for both Amazon employees and third-party vendors, reducing integration time from several weeks to a few hours.
- Collaborated with multiple teams to streamline internal processes, and identified and delivered quality-of-life improvements to enhance accessibility to applications for employees and third-party vendors.
- Authored detailed guides and documentation for in-house tools and libraries, ensuring understanding of complex processes for both technical and non-technical stakeholders.

### Brown University, Computer Science Department

May 2019 – May 2021

*Head Teaching Assistant, Functional Programming and Data Structures*

*Providence, RI*

- Wrote, reviewed, and refined the course curriculum and necessary educational materials.
- Held weekly office hours and labs to guide 200+ students in course content and offer help with assignments.
- Worked with a professor and four head teaching assistants to plan schedules and allocate responsibilities.
- Supervised 20+ teaching assistants, coordinating weekly meetings and overseeing delivery of course content.
