PROFILE

Background in community engagement, grant management, and hands-on food production, with experience in sustainable agriculture and educational contexts across rural Ghana and New Jersey.

EXPERIENCE

Cherry Grove Farm

Jun. 2025 – Feb. 2026

Cheesemaking Apprentice

Lawrenceville, NJ

- Represented the farm at a weekly farmers market, making direct-to-consumer sales and engaging directly with customers on sustainable agricultural practices, safety, and food sourcing.
- Contributed to grant writing and compliance for a regional USDA Business Innovation grant application, editing narrative and budgetary documentation, and ensuring compliance with application requirements.
- Gained firsthand understanding of operational and economic pressures of small-scale, sustainable dairy farming, including the relationship between humane and regenerative animal agriculture, nutrition, and quality.
- Supported daily cheesemaking operations, contributing to the production of the farm's award-winning cheeses, and developed foundational knowledge of dairy microbiology, food safety, and sensory evaluation.

Peace Corps Ghana

Jun. 2022 – Sep. 2024

Education Volunteer

Oti Region, Ghana

- Helped establish a school garden to teach students hands-on farming, sustainable agricultural practices, and support the science curriculum, while also generating produce to fund school needs.
- Secured and managed a \$13,000 grant for school construction, coordinating across community members, district officials, and Peace Corps staff, while maintaining detailed budgeting, timeline, and progress records.
- Organized and facilitated community workshops and training events for educators, youth, and community members, including hands-on health-focused programming and positive reinforcement trainings for teachers.
- Designed engaging lesson plans and taught mathematics and computing to 110+ junior high school students.
- Co-organized and co-facilitated a weekly literacy club to engage 60+ students through interactive activities.
- Developed proficiency in Twi through classes and daily immersion, and developed conversational ASL.

Amazon

May 2021 – Aug. 2021

Software Dev Engineer Intern

Sunnyvale, CA

- Authored technical guides and documentation for in-house tools and libraries, ensuring accessibility and understanding of complex processes for both technical and non-technical stakeholders.
- Developed Python and Java libraries for SSO authentication, reducing integration time from weeks to hours.

EDUCATION

Brown University

May 2022

Bachelor of Arts, History of Art and Architecture

Providence, RI
